

THE LAND SKILLS FAIR

2025 PROGRAMME

11TH-13TH
JULY 2025
CROPS NOT SHOPS,
GLASTONBURY

WELCOME!

We're excited to share with you our programme for the **Land Skills Fair 2025**, encompassing music, talks, workshops, practical skill shares, feasts, joy and silliness. The programme of events will be running at **Crops Not Shops**, from **8:30am Friday morning (July 11th)** until **midnight on Sunday (July 13th)**. You are welcome to arrive on site on **Thursday** to set up your camping pitch and be ready for **Friday morning** to soak it all in!

We kick off on **Friday at 8:30am** with an **opening ceremony around the hearth**, before getting muddy with a cob building workshop and an introduction to the radical politics of *La Via Campesina*, the global peasant movement of 200 million members that the Landworkers' Alliance is deeply embedded in. There will be plenty of information about the Landworkers' Alliance and our work, membership group meet ups, as well as the **Woody Branch** area for woodland workers to relax and connect.

There will be a full range of talks and workshops in the **Land Justice space**, designed to bring us together to build a powerful land justice movement. We are honoured to be joined by **CK Janu**, a tribal activist leader from Kerala in India who led 35,000 people in reclaiming their ancestral land.

Our **Practical Skill Sharing space** is packed with workshops from soil analysis, well drilling and seed saving, to hands on butchery and herbal salve making.

The **Hands and Land Craft space** will be filled with craftworkers holding interactive workshops and demonstrations, from blacksmithing to spoon carving and weaving of both willow and wool, while the **Kids area** will have beautiful interactive games and craft sessions for all ages.

The **Wellness space** will provide space to heal weary landworkers and celebrate the regeneration and joy that connection to land and community bring to us, held by Dr Kam, and the **Wellness Talks Tipi** will hold restorative and healing workshops.

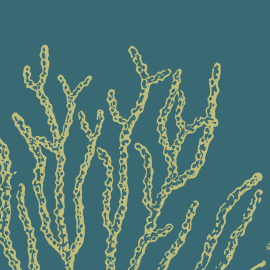

FLAME, OOTL and the Land Skills Hub will host a chill out space showing films, hosting stalls and a clothes swap, and hosting talks on popular education and building connections.

Throughout the fair we have an incredible line up of headline music, from folk to hip-hop, on the **Libertalia main stage** for the full 3 days of the fair, plus musicians and poets at the **Torch and Pitchfork space** next to the **Woody Branch area** as well as plenty of singing around the singing fire and central hearth.

The new songbook **Singing for Justice on Land and Sea** will be launched at the fair, so that we can all know the words to a new range of political justice songs.

And, of course, we have **3 ceilidhs over the course of the fair - Friday, Saturday and Sunday!**

Loki's Fire Kitchen will have a feast for sale on Saturday night, and **Two Trees catering** will be selling a feast for Sunday evening , both using local landworkers produce.

There will be some stalls selling produce, but if you would like to bring anything to sell at the fair, there will be a **flypitch zone**. Feel free to make anything to bring and sell, to support your landwork and get some extra spending money for food and drink.

Two bars will be at the fair run by **Old Tree Brewery** and the **Woody Branch**, including a cocktail bar at the Torch and Pitchfork.

There will be a sauna and plenty of fun with **haybale olympics**, **Muddy Matches speed dating** and our **Best of the Land competition**.

Joining us are a great range of musicians, with KMT headlining on Friday, Moyah on Saturday, and The Brothers Gillespie and Seize the Day on Sunday, followed by the **closing ceremony from 7 to 8 pm**. We run later than usual on Sunday night, following the closing ceremony with musical performances by Jacob of the King Driscolls, dance music from Platform Arts, and jazzy cabaret from the Barrel House Vipers.

We are a very small team pulling together what has been an outpouring of enthusiasm to build this programme. We have not been able to contain the energy, with more workshop offerings pouring in every day! The whole fair will have a DIY vibe, but we will make it an incredible event, together. Bring your joy and creativity.

We will have a brilliant time, building together the movement, co-creating and celebrating a world built in solidarity and love.

See you there!

And don't forget to read our safer Spaces Policy!

RIGHT TO ROAM: IN ACTION (TIME TO MAKE HISTORY AGAIN)

It's 2025, in England we have access to 8% of the countryside and 2% of waterbodies, if landowners are nice enough to maintain that access. Less than 1% of the population — including aristocrats, royals and wealthy investors — owns about half of the land in England. On top of all that if you're queer, not white, disabled or poor your access to land and chances of owning it are much lower. To top it all off the labour government got scared off introducing a Right to Roam by the National Farmers Union (NFU). It's time to take action. Trespass is not a criminal offence, so let's claim our right to roam now!

17:00 – 18:30

MUSEUM OF ENCLOSURE

Museum of Enclosure is a political education project that sprouted in 2024, but its roots have been nurtured by generations of resistance to dispossession. These commoners met organising around land justice and folk knowledge. Their approach is grounded in memory work, looking to histories

and living experiences of enclosure as powerful resources for reconnection. The workshop will model tangible dreams of stewardship while sharing stories of dispossession. We will imagine what new worlds of property relations and repair could exist on these isles, sewing a collective map of our stories which will become part of the Museum's collection.

Half of England is still owned by less than 1% of the population. This workshop is an opportunity to collaboratively and practically consider, how do we get the land back through collaborative/cooperative models of land ownership - housing cooperatives, land trusts, the ecological land cooperative, community shares, mutual housing - followed by a brainstorming session to think about new opportunities for collaboration and networking.

A workshop opening up dialogue around the unseen work of the queer community, who all too often have to put in unrecognised labour to turn up and exist in outdoor and growing spaces. The workshop invites people to think about what is missing, what already exists that they would like to see more energy put into, and what are their blockers/challenges.

17:30 – 18:30

MIGRANT RIGHTS NETWORK – WORDS MATTER

We cannot rebuild a just and liberated world without also rebuilding the stories we tell about those who sustain it. If food is to be in our hands—if land, movement, and dignity are to be reclaimed—then the voices of migrant and marginalised workers must be heard: defiant and unbroken. We will explore the ways narratives around migration are crafted to justify control and extraction, and reclaim the power to define our own narratives.
